

Benjamin Walker

Product Designer

2025 grad w/ a passion for combining modern, expressive interfaces with user-centred design.

About me

🏠 Balmain, Sydney

📅 19-11-2001

- Well-versed in individual and collaborative work, seeking & providing feedback at all times.
- Healthy perfectionist streak: I abhor the idea of leaving a task haphazardly-done.
- Proficient in front-end web development, giving me an edge in understanding technical constraints.

Education

University of Sydney

2020—25

CWAM 75.8

Bachelor of Design Computing

Bachelor of Advanced Studies (Digital Cultures)

- Built proficiency in the tools and stages of user-centred design, including: UX research; sketching; wireframing; user journey diagramming; digital prototyping; usability testing.
- Developed expertise in working with Figma, integrating (sprawling or focused) design systems, and adapting to the latest trends in interface design.
- Acquired skills in rapid iteration to a brief, including quantitative/qualitative data analysis under tight deadlines.
- Often found myself leading the push for increased simplicity, cohesion and visual expression.

Blackwattle Bay NSW Secondary

2017—19

High school

Experience

Harris Farm Markets

2023—

Casual

Shift Supervisor (2024—)

- Lead register teams, worked cross-functionally with other departments and developed strong client-facing communication skills through daily customer interactions and stakeholder management with partner companies.
- Promoted to supervisor role within one year, demonstrating ability to receive feedback and grow skills rapidly while working at pace.

Shop Assistant (2023-24)

- Gained skills in multitasking, while retaining attention to detail in a fast-paced environment and prioritising empathy for customers.

Quay Appointments

2023

2024

2 references

Scrutiny Officer/Data Entry Officer

Contract roles in digital formatting/scrutinising for the 2023 and 2024 NSW election ballots.

- I was able to collaborate effectively in large teams, keeping up an eye for detail while constantly adapting to changing requirements and technical constraints.
- Received recognition for excellent performance; invited back for additional contract as a Data Entry Officer in 2023, and finished the job 3 days early in 2024.

Australian Electoral Commission

2022

1 reference

Electoral Officer

- Administered voting processes as part of a small, diverse team managing paper-based systems; with high attention to detail and focus on voter assistance.
